General Delivery
Placencia Peninsula
Stann Creek District

Dear Ms. Toy,

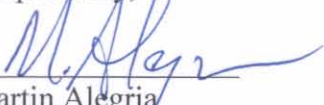

This refers to your correspondence dated December 4, 2009 with respect to length of the runway of the Placencia North Airstrip.

Kindly note that the Department of the Environment granted Environmental Clearance for an asphalted runway measuring 5,000 feet in length and 75 feet in width and 80 feet asphalted shoulder. To date, no amendment to the Environmental Compliance Plan has been made.

Please be informed that on its next scheduled monitoring visit to the Placencia North Airstrip, personnel from the Department shall verify the length of the runway as well as the clearway length on either end of the strip.

Thanks for your kind attention.

Respectfully,

Martin Alegria
Chief Environmental Officer
Department of the Environment
